### INET LECTURE - LA LUCE IN FONDO AL TUNNEL. PERCHÉ LA RIPRESA È COSÌ LENTA

introduce ROSSELLA BOCCIARELLI

Nel 2008-09, l'economia Usa ha subito la recessione più grave dagli anni Trenta, e la ripresa finora è stata deludente: a questo si accompagna il forte aumento della disuguaglianza registrato negli ultimi decenni. I dati dimostrano che i due fenomeni sono collegati, perché l'impoverimento relativo del 95% della popolazione ha frenato i consumi delle famiglie rallentando la ripresa.
